### **PAUL ANTHONY CLAXTON**

#### PROFESSIONAL SUMMARY

I am a Managing General Partner at Digerati Investments, an early-stage AI investor that focuses on impact-driven companies that improve people's welfare, economy, and environment. With almost 10 years of experience as a serial entrepreneur and an emerging fund manager, I have co-founded and led several ventures in the fields of innovation, market development, talent recruitment, and technology acceleration, working with global and diverse partners across various industries and sectors.

As a Head of Silicon Valley Syndicate Club - Los Angeles Chapter at Network VC, I also facilitate co-investment opportunities for private investors to join deals with well-known VCs, such as Softbank, Samsung Ventures, BlackRock, Andreessen Horowitz, and Founders Fund. I am passionate about solving unmet needs with emerging technologies, creating technology success stories, and advancing global society forward for the greater good. I am a public speaker, an author, a San Diego Business Journal 40 under 40 honoree, and a U.S. Marine veteran with 10 years on active duty and four combat tours. I am currently pursuing my MBA of Finance at Harvard University and hold a Bachelor of Science in Criminal Law and Psychology from Park University and a Military Leadership and Strategy certificate from Marine Corps University.

#### HOW I VIEW BUSINESS AND CAPITALISM

Capitalism isn't about making money at its core, that's only a byproduct reward. To me it's about advancement for the greater good and improving people's lives. I'll make a statement on the world by using technology, best business practices and leadership to improve people's lives. Live Long and Prosper. I truly believe capitalism is about capitalizing on opportunities to pay it forward. SEMPER FI!

#### HOW I VIEW ENTREPRENEURSHIP IN QUOTES

"If you are not trying to take over the world and you are an entrepreneur, then what are you doing?" - PC

"I believe people become entrepreneurs because they strive to put it all on the line to make the world a better place and improve the lives of others" - PC

"When something is important enough, you do it even if the odds are not in your favor" Elon Musk

"No matter how you feel about Artificial Intelligence (AI), the question to ask is, does AI need us, or do we need it?"

#### KNOWLEDGE AREAS

Business Analysis – Technology Innovation and Product Strategy – Building Teams and Scalable Operations – Contingency Labor and Supply Chain Resources – Marketing and Growth Hacks – Venture Capital – PR/Media and Public Speaking – Global Markets – Bootstrapping Companies/LEAN approach –Dealmaking/Architecting the Deal From Nothing

Credibility is determined by the ability to produce ROI and be dependable. My relationships mean the world to me, so before we do business, we ensure that the ROI potential is significant, and we support the ROI potential with resources from our subsidiary companies and partners. Most of all we ensure that the people we are dealing with are accountable, dependable and have a strong sense of integrity. Together we invest our money and resources into already profitable, but rare opportunities that make sense as well as things we like and people we like, and our partnerships that span the globe. I continue to work with family offices, funds of funds, HNWI/UHNWI, institutional investors, universities, and corporate venture innovation divisions across the globe. **Connected to TOP 50 Family Offices in the world.**

- My companies have secured numerous banking and funding partners to assist startups with all sorts of funding e.g. mezzanine, debt, equity, lease-buy-back/venture leasing, escrow, and revenue-based finance

## PERSONAL STATEMENT

*While I cannot list all of my doings in this resume, I will leave you with a heartfelt personal statement below:*

I love launching companies. I love entrepreneurship. I love venture capital. I am a continuous learner who loves what the unknown journey brings. I believe there are more problems in the world than solutions, and we need innovation to drive the new solutions to issues we have not solved or even considered looking at yet from a global level. I believe business needs to be redefined by innovation and diversity in all aspects, and people are at the heart of that, but technology is the catalyst. I have experienced costly failures as an entrepreneur, but those failures have turned into more lucrative successes, therefore trumping the failures. I think about my failures daily, I dream about them, and it keeps me humble and non-complacent which is the perfect mixture to attain ultimate success. I love entrepreneurship and venture capital, not just as a business endeavor, but as a force for good and a way of looking at and living life.
